## Agents FEC is one of the most popular specialty games.

All players start on one team (Blue), and spread out into the arena. Shortly after the game begins, a small percentage of players are randomly selected and changed to Gold Team. They are then given 50 points for every 5 seconds that they remain Gold.

Gold players can tag Blue players in an effort to defend themselves, but if a Blue player tags a Gold one, they “steal” the Gold colour. The Gold player will switch back to Blue and cease earning points, while the Blue player will become Gold and start earning points.

The game continues to play until the time limit is reached, the player who remains Gold for the longest will earn the most points and win.
