Game Type
Membership
Game Level

Special
–
Intermediate

The infectious gameplay of FEC Zombies makes it a party favourite – How long will you survive?

All players start on the Gold Team and very soon after the game starts, several players switch to the Red Team (zombies). The zombies can be killed by the Gold Team, and must then stand in front of any arena component to get respawned.

When a zombie kills a Gold player, the Gold player will switch to the Red Team. Once all players are Red, the game will cycle, turning everyone Gold, and reselecting some players to be Red (at random).

Survive the longest to score the most points!
